Belmont Powder

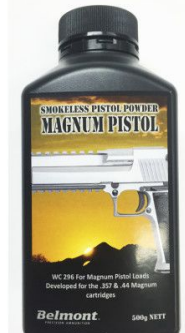

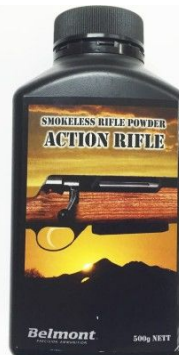

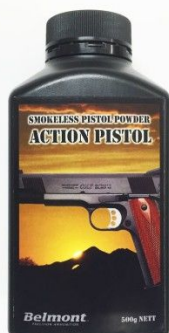

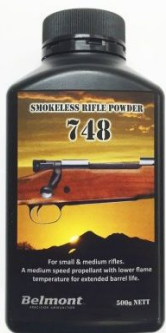

748 is our top pick for .308 ammunition. The low flame temperature of 748 extends barrel life compared to other similar speed powders. It is also ideal for a wide variety of centerfire rifle loads, including 222 Remington, 223 Remington, 30-30 Winchester, 30 Winchester, and up to 485 Winchester Magnum. Belmont's 748 is a quality clean burning spherical smokeless powder manufactured in the USA.

Action Pistol Powder is a top quality clean burning smokeless powder manufactured in the USA. This powder is suitable for a variety of pistol calibres, including: 9mm, 40S&W, 38 Super and 45 Automatic. It is our go to choice in powder for our complete 9mm range. For reference purposes this powder lies somewhere between AP70 and AP100.

Action Rifle Powder is also a top quality clean burning smokeless powder manufactured in the USA. This powder is suitable for a variety of rifle calibres, including .223 and .308. It is our top pick for .223 loads in any bullet weight and our top pick for lighter projectile .308 loads. For reference purposes this powder lies somewhere between AR2206H and AR2208.

Magnum Pistol Powder was developed for Winchester factory-loaded ammunition for 357 Magnum, 444 Magnum, and 410 Bore. Its high loading density provides optimal velocity. 296 is recommended by Winchester for 410 Bore AA loads.
