

B&T SMG APC45 cal. .45 ACP

B&T SMG APC45 cal. .45 ACP

For those who believe that „bigger is better“ the APC45 is the perfect choice. It is not only one of the lightest and most compact .45 SMGs on the market, but due to its internal hydraulic buffer it is the most pleasant to shoot. The buffer also gives the shooter tight shot groups when short bursts fired.

Additional Information
